In challenging economic times we need to know that every penny we give to charity makes a long lasting difference.

We're opening our biggest ever Refurbishment Centre in Rugby and we need your help to turn this empty building into a fully equipped workshop

This is one of four large workshops downstairs, plus a huge mezzanine above

Helping us transform this building is surely making every penny count

Our most important appeal ever - for our biggest challenge ever - to have the greatest impact ever with tools sent to Africa.

So why is it our most important ever appeal?

Because the fit-out costs are immense at around **£150,000**. Here’s just a few of the big items we have to buy:

- **£10,000** to install central heating to the offices and volunteer rooms
- **£30,000** for racking for pallets and lots of industrial shelving for tools and spares
- **£9000** pallet trucks, metal stillages and wheeled storage trolleys etc.
- **£13,000** tools for refurbishment from pillar drills to angle grinders
- **£18,000** second hand electric forklift
- **£7000** good quality used office furniture
- Plus electrical work and a few important internal changes.

There is so much to do and we really, really need your help!

“So how did we find our new building? The story is a miracle in itself, Mike Griffin, our CEO tells us what happened.”

“Over three years ago, I met with the trustees to plan our five year strategic plan. We are a Christian charity so we spent a lot of time praying and asking God what he wanted us to do.

The answer was that we should double in size by opening a second large Refurbishment Centre. So in the middle of a pandemic we started to look for buildings to rent in Coventry, where we already had a small centre.

We couldn't find anything, then one day I was on the internet looking for a picture of an industrial unit and a rather run down looking building caught my eye. I didn't give it a second thought, until I felt God say, “look at it again”. But it was in Rugby, which seemed too far away so I dismissed it, until God said “go and look at it.” So, reluctantly a group of us went and as we started to look round, we all knew this was our building.

I had done a layout of our ideal building and it fitted the plan so perfectly even the door was in the same place. We knew we had found our home.”

The million tool challenge continues, it started with Nigel Hyde joining us as the Refurbishment Centre Manager

How you can help us: there is so much we need!

We need to raise £150,000 to fit-out our new Refurbishment Centre and just some of the items are below. You could choose to put your gift towards one of the items below or towards the greatest need. Truly making every penny count.
